HMPS2000 CARTON ERECTOR

HMPS2000 erectors and HMPS7000 top sealers offer an effective method of producing and sealing RSC cartons for end of line automation. Available with tape or hot melt adhesive sealing, these solidly constructed machines integrate well with manual or robotic loading stations.

LARGE CAPACITY CARTON MAGAZINE

The optional large capacity carton magazine with its low loading height, enables the machine to operate for long periods of time without operator attention.

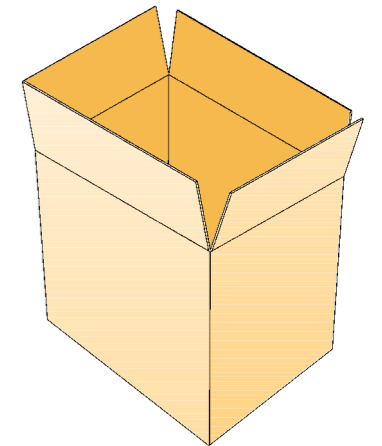

FAST, EFFICIENT CARTON ERECTION

The erectors operation and construction ensures continuous production of RSC cartons with minimal maintenance or operator attention.

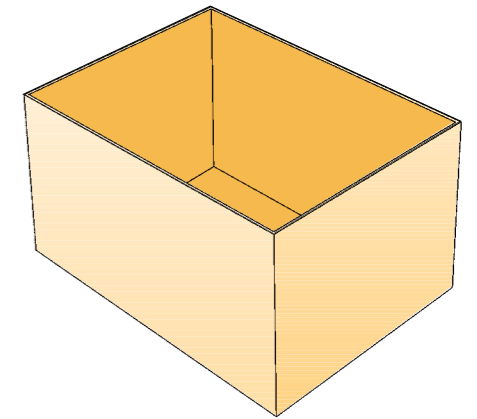

TOP SEALER

The HMPS7000 sealer automatically closes and hot melt seals prefilled cartons.
